ten Hoopen
REALTY

Project for five townhouses in Lagos

ten Hoopen Realty presents a rare development opportunity in the historic center of Lagos: an approved project for the urban requalification of a residential complex consisting of five semi-detached houses, with a total construction area of 1,030 m². In a market where the scarcity of new product in a central location is increasingly evident, this project stands out for its solidity, favorable tax framework and high potential for appreciation.
